

# UpTickXL

## Free Trial Setup

Thank you for your Interest in UpTickXL. Follow the simple steps below to begin your 30-day free trial.

*\*This trial uses an evaluation server hosted by UpTick. Contact us at [info@uptick.tech](mailto:info@uptick.tech) If your firm would prefer an on-premises trial.*

### Installing and Testing the UpTickXL Add-In

1. If you haven't already, download `UpTickXL-Free-Trial.zip` from [www.uptick.tech/free-trial](http://www.uptick.tech/free-trial) and unzip it to your computer's desktop.
2. Close all instances of Excel running on your computer.
3. Right-click the `UpTickXL-AddIn-Setup.exe` installer executable that can be found in the unzipped folder and select "Run as administrator" (or double-click if that option is not available).
4. Open the `UpTickXL_InstallTest_Pub.xlsx` workbook that can be found in the unzipped folder. Follow the directions in the comments of that sheet to confirm the installation was successful.
5. It is fine to delete `UpTickXL-Free-Trial.zip` and the entire unzipped folder.

### Troubleshooting

1. The UpTickXL Add-In requires .NET 4.6.1 or later to be installed on the computer. Installing using "Run as administrator" as described in step #3 above will ensure the installer has the necessary rights to install .NET 4.6.1 if necessary. If you do not have admin privileges on the machine and the install fails, contact your IT group and ask them to pre-install .NET 4.6.1 on your computer then re-run the installer.
2. If you have questions or issues, or would like to enable Web publishing or margin analysis for the trial, contact us at [help@uptick.tech](mailto:help@uptick.tech).
